Professional Summary

Computer science student holding a Diploma of University Technology (DUT) with a strong background in web and mobile development. After obtaining the GCE Advanced Level, I developed solid skills in programming, application design, and database management. Passionate about digital technologies and communication, I aim to further my studies to design innovative solutions adapted to the evolving digital landscape, every where.

Work Experience

Genie Building

Full Stack Developper

Jan 2025 - Jul 2025

Worked as a Full Stack Developer, responsible for designing and developing web applications. Contributed to both frontend and backend development, including user interface design, database management, and API integration. Collaborated with team members to build efficient, scalable, and user-friendly digital solutions.
